

Information acc. to Article 33 of the REACH- Regulation (EC) No. 1907/2006

Dear Business Partners,

The Regulation (EC) 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) regulates the production, placing on the market and use of chemical substances and mixtures thereof in the EU. Furthermore, the REACH-Regulation also contains requirements for the transfer of information along the value chain.

According to Article 33 of the REACH- Regulation suppliers of products are required to inform their customers when the product contain a substance listed in the SVHC candidate list at a concentration exceeding 0.1 mass percentage.

We herewith would like to inform you that some of our products contain the following substance of the SVHC list in concentration of up to 4 mass percentage:

Lead (Pb) CAS: 7439-92-1 EINECS.: 231-100-4 Date of registration : 27.06.2018

The conformity to Directive 2011/65/EU concerning the restriction of the use of certain hazardous substances in electrical and electronic equipment is not affected.

According to Annex III , section 6 of the RoHS- Directive following materials may contain:

- 6.a Steel alloys up to 0,35%
- 6.b Aluminium alloys up to 0,40%
- 6.c Copper alloys up to 4,00% of lead.

CE-marked products meant for the EU market meet these requirements without exception.

If you have any questions about the topics mentioned, please do not hesitate to contact us.
